

between two armies in the ixil towns of guatemala

david stoll

Between Two Armies in the Ixil Towns of Guatemala: David Stoll's Profound Exploration

between two armies in the ixil towns of guatemala david stoll is more than just a phrase—it encapsulates a deeply complex and haunting chapter in Guatemalan history. This phrase draws us into the world of David Stoll, a renowned anthropologist whose work offers an intimate and critical examination of the Ixil communities caught in the violent strife between government forces and guerrillas during Guatemala's brutal civil war. His research sheds light on the lived experiences of indigenous peoples trapped “between two armies,” navigating survival amidst political turmoil, cultural upheaval, and pervasive violence.

Understanding the context and significance of Stoll's work not only enriches our knowledge of Guatemalan history but also provides important lessons about conflict, resilience, and the human cost of war. In this article, we delve into the core themes and insights found in David Stoll's examination of the Ixil towns, exploring the historical background, the anthropological approach, and the ongoing relevance of his findings.

The Historical Backdrop: Guatemala's Civil War and the Ixil Region

To appreciate the depth of David Stoll's work, it's crucial to understand the historical context of the Guatemalan civil war, which lasted from 1960 to 1996. This conflict was marked by severe violence, including targeted campaigns against indigenous populations, particularly in the Ixil region—a mountainous area in the western highlands inhabited predominantly by the Maya Ixil people.

The Ixil Communities and Their Cultural Identity

The Ixil people have a rich cultural heritage, maintaining their language, traditions, and social structures despite centuries of marginalization. Their towns—such as Nebaj, Chajul, and Cotzal—became focal points of resistance and suffering during the civil war. The indigenous communities' deep connection to their land and customs made the violence inflicted upon them not just physical but cultural devastation.

Between Two Armies: The Military and Guerrilla Presence

David Stoll's phrase "between two armies" vividly captures the predicament faced by the Ixil towns. On one side were the government's military forces, conducting "scorched earth" campaigns aimed at eradicating guerrilla influence. On the other, guerrilla groups sought to mobilize indigenous support against the oppressive regime. The Ixil people were caught in the crossfire, often viewed with suspicion by both sides, which led to tragic consequences including massacres, forced displacements, and human rights abuses.

David Stoll's Anthropological Approach in the Ixil Towns

What sets David Stoll's work apart is his immersive anthropological methodology. Unlike many accounts based solely on military or political analysis, Stoll spent extensive time living in the Ixil communities, learning their language, and engaging directly with survivors. This approach gave voice to the indigenous perspective, often overlooked in mainstream narratives.

Ethnographic Fieldwork and Storytelling

Stoll's ethnographic fieldwork involved collecting oral histories, observing daily life, and documenting the social dynamics within the Ixil towns. Through this, he revealed the nuanced ways in which residents understood and coped with the violence surrounding them. His work highlights how the conflict was not simply a binary struggle but a complex web of loyalties, fears, and survival strategies.

Challenging Simplistic Narratives

One of the critical contributions of "between two armies in the ixil towns of guatemala david stoll" is its challenge to oversimplified portrayals of the Guatemalan civil war. Stoll critiques the tendency to see indigenous communities merely as passive victims or as monolithic supporters of one faction. Instead, he presents them as active agents navigating an impossible situation, often forced into heartbreaking decisions.

The Human Impact: Violence, Displacement, and Memory

The consequences of being caught between two armies were devastating. Stoll's work illuminates the widespread human rights violations experienced by the Ixil people, which included massacres and the destruction of entire villages.

Massacres and Military Campaigns

Government forces, under the guise of counterinsurgency, executed brutal campaigns that decimated populations in the Ixil region. Stoll's documentation of these atrocities provides

Frequently Asked Questions

Who is David Stoll in the context of the Ixil towns of Guatemala?

David Stoll is an anthropologist and author known for his research on the Ixil Maya community in Guatemala, particularly focusing on the impact of the Guatemalan civil war on indigenous populations.

What is the main theme of David Stoll's work 'Between Two Armies in the Ixil Towns of Guatemala'?

The main theme explores the experiences and struggles of the Ixil Maya people caught between government forces and guerrilla armies during the Guatemalan civil war.

How does David Stoll describe the impact of the Guatemalan civil war on the Ixil towns?

David Stoll describes the impact as devastating, highlighting forced displacement, violence, and the disruption of traditional Ixil social structures due to military operations and guerrilla activities.

What methodology did David Stoll use in his study of the Ixil towns?

David Stoll employed ethnographic fieldwork, including interviews, participant observation, and historical analysis to document the experiences of the Ixil people during the conflict.

Why are the Ixil towns significant in the study of Guatemala's civil war?

The Ixil towns were significant because they were heavily affected by military campaigns aimed at counterinsurgency, making them a critical case study for understanding the war's impact on indigenous communities.

What contribution does David Stoll's work make to the understanding of indigenous conflicts in Guatemala?

David Stoll's work provides an in-depth perspective on the complexities faced by indigenous populations

during armed conflict, emphasizing their agency, suffering, and resilience amid violence.

Between Two Armies in the Ixil Towns of Guatemala: David Stoll's Investigative Journey

between two armies in the ixil towns of guatemala david stoll offers a profound exploration into one of the most turbulent chapters in Guatemala's history. David Stoll's work meticulously documents the harrowing experiences of the Ixil Maya communities caught amidst the violent clash between the Guatemalan military and guerrilla forces during the country's prolonged civil war. This critical study not only brings to light the complex socio-political dynamics of the conflict but also challenges some prevailing narratives about indigenous victimization and resistance in war zones.

The Ixil region, located in the western highlands of Guatemala, became a focal point of military operations during the 1980s, a period marked by intense counter-insurgency campaigns. Stoll's investigation, based on extensive fieldwork, interviews, and archival research, delves into how the Ixil towns were transformed into battlegrounds, entangling civilians in a deadly confrontation between two armies. His analysis sheds light on the lived realities of the Ixil people, highlighting the multifaceted nature of their involvement and the devastating consequences of the war.

Contextualizing the Conflict: The Civil War and the Ixil Region

The Guatemalan Civil War, spanning from 1960 to 1996, was characterized by brutal armed confrontations, political repression, and widespread human rights abuses. The Ixil region, predominantly inhabited by the indigenous Maya Ixil population, became notorious for the severe violence inflicted upon its communities. *Between two armies in the ixil towns of guatemala david stoll* illustrates how government forces labeled these areas as guerrilla strongholds, justifying harsh military campaigns that often blurred the lines between combatants and civilians.

Stoll's work situates the Ixil towns within the broader framework of state-sponsored counter-insurgency efforts. These campaigns, often described as "scorched earth" tactics, involved systematic destruction of villages, forced displacements, and massacres, aiming to dismantle guerrilla support networks. The book critically examines the narratives constructed around these military operations, questioning simplistic portrayals of the Ixil solely as victims and instead presenting a nuanced picture of agency, survival strategies, and local power dynamics.

The Duality of War: Between Guerrillas and Government Forces

One of the central themes in *Between Two Armies in the Ixil Towns of Guatemala* by David Stoll is the dual pressure exerted on the Ixil communities by both the guerrilla insurgents and government troops. Stoll's field research reveals that the Ixil people navigated a precarious existence, constantly negotiating their allegiances and survival tactics amid competing demands.

The guerrilla forces, operating in the highlands, often relied on indigenous support, whether voluntary or coerced. Meanwhile, the military's suspicion of the Ixil as guerrilla sympathizers led to harsh reprisals, including massacres that have been labeled genocide by some human rights organizations. Stoll's analysis complicates this binary by documenting instances where the Ixil resisted both armies or sought to maintain neutrality, highlighting the ambiguous and fluid nature of wartime loyalties.

Methodology and Sources: Stoll's Investigative Approach

David Stoll's approach in *Between Two Armies in the Ixil Towns of Guatemala* is marked by rigorous ethnographic methods combined with archival investigation. His prolonged presence in the Ixil region allowed him to gather oral histories directly from survivors, military personnel, and former guerrillas. This triangulation of sources strengthens the credibility of his findings and offers a multi-dimensional perspective rarely captured in official reports or mainstream accounts.

By cross-referencing testimonies with military documents, court records, and NGO reports, Stoll reconstructs a detailed chronology of events and reveals contradictions in the dominant narratives. This comprehensive methodology not only enriches the historical record but also invites readers to critically assess the complexities inherent in conflict zones where truth is often contested.

Key Themes Explored in *Between Two Armies in the Ixil Towns of Guatemala*

1. The Impact of Militarization on Indigenous Communities

Stoll's work highlights how militarization disrupted the social fabric of the Ixil towns. The imposition of military authority transformed daily life, leading to widespread fear, displacement, and economic hardship. The destruction of crops, confiscation of resources, and restrictions on movement compounded the physical violence inflicted by the armies.

Furthermore, the book examines the long-term psychological effects on survivors, including trauma and social fragmentation. *Between two armies in the ixil towns of guatemala david stoll* underscores the importance of understanding these impacts in the context of post-conflict reconciliation and justice efforts.

2. Contesting Historical Memory and Narratives

A significant contribution of Stoll's study is its challenge to monolithic portrayals of the Ixil conflict. While many accounts emphasize the victimhood of indigenous populations, Stoll introduces a more nuanced narrative that includes complicity, agency, and internal divisions within the Ixil community itself.

This approach invites a critical reflection on how history is recorded and remembered, especially in societies emerging from violent conflict. The contestation over memory, as documented by Stoll, affects ongoing debates about accountability, reparations, and indigenous rights in Guatemala.

3. The Role of International Law and Human Rights Discourse

Between two armies in the Ixil towns of Guatemala, David Stoll also engages with the international legal frameworks that have emerged in response to the atrocities committed during the civil war. Stoll evaluates human rights investigations, genocide trials, and the role of international organizations in documenting abuses.

His analysis raises important questions about the effectiveness of these mechanisms in delivering justice and preventing future violence. The book situates the Ixil experience within broader discussions about transitional justice, emphasizing the challenges of addressing complex conflicts where multiple actors bear responsibility.

Comparative Perspectives: Insights from Other Conflict Zones

Stoll's examination of the Ixil towns provides valuable comparative insights for understanding indigenous experiences in other armed conflicts. Similar patterns of militarization, forced displacement, and contested loyalties have been observed in regions such as Chiapas in Mexico or the Chittagong Hill Tracts in Bangladesh.

The book's analytical framework, emphasizing the dual pressures faced by indigenous communities between opposing armed groups, offers a template for scholars and policymakers seeking to comprehend the intersection of ethnicity, land, and warfare. It also underscores the necessity of tailoring peacebuilding efforts to the specific historical and cultural contexts of affected populations.

Lessons and Reflections for Contemporary Conflict Analysis

From David Stoll's detailed investigation in between two armies in the Ixil towns of Guatemala, David Stoll,

several lessons emerge relevant to contemporary conflict studies:

- **Complexity over Simplification:** Conflicts involving indigenous groups resist simplistic binaries of victim and perpetrator, requiring nuanced analysis.
- **Local Voices Matter:** Incorporating indigenous testimonies is crucial for an authentic understanding of conflict dynamics.
- **Memory and Justice Are Interlinked:** How history is remembered directly impacts reconciliation processes and policy formulation.
- **Interdisciplinary Approaches Enhance Understanding:** Combining ethnography, history, and legal analysis enriches conflict research.

Such insights highlight the enduring relevance of Stoll's work beyond the Guatemalan context.

The depth of David Stoll's investigation into the Ixil towns between two armies in the ixil towns of Guatemala David Stoll brings forward a compelling narrative that challenges, informs, and deepens our understanding of indigenous experiences in war. His balanced and thorough approach invites ongoing discourse about the complexities of internal armed conflicts and the paths toward healing and justice.

between two armies in the ixil towns of Guatemala David Stoll: *Revolution im Namen Gottes* Tamara Candela Gómez de la Torre, 2025-07-26 Anhand der Untersuchung von autobiographischen Interviews zeichnet Tamara Candela Gómez de la Torre die Erfahrungs- und Deutungswelten von religiösen Akteuren nach, die sich in Guatemala in progressiven religiösen Bewegungen engagieren. Sie geht den Fragen nach, wie und warum sich die religiösen Akteure in Guatemala in den Zeiten von internem bewaffnetem Konflikt und/oder Post-Konflikt unter repressiven Bedingungen progressiven religiösen Bewegungen anschlossen und damit ihr Leben riskierten, und inwiefern ihre religiöse Praxis im zeitlichen Verlauf (vom Konflikt zum Post-Konflikt) Kontinuitäten und Veränderungen aufzeigt. Theoretisch und methodologisch orientiert sich die Untersuchung an der auf Pierre Bourdieus Sozialtheorie basierenden Methode der Habitusanalyse von Heinrich Wilhelm Schäfer. Diese ermöglichte die Erarbeitung von drei Clustern, die Akteure mit unterschiedlicher religiöser Praxis (Habitusformationen) erfassen sowie auch deren religiös-politische Mobilisierung nachzeichnen. Indem die Cluster entsprechend den Narrationen der Akteure über die Perioden von Krieg und „Frieden“ unterteilt wurden, wird auch der Einfluss von (sich wandelnden) Makrokontexten auf religiöse Praxis und deren Wandel aufgezeigt.

between two armies in the ixil towns of Guatemala David Stoll: *Challenging Authoritarianism in Mexico* Fernando Calderon, Adela Cedillo, 2012-04-23 The Cold War in Latin

America spawned numerous authoritarian and military regimes in response to the ostensible threat of communism in the Western Hemisphere, and with that, a rigid national security doctrine was exported to Latin America by the United States. Between 1964 and 1985, Argentina, Chile, Mexico, Brazil, Paraguay, and Uruguay experienced a period of state-sponsored terrorism commonly referred to as the dirty wars. Thousands of leftists, students, intellectuals, workers, peasants, labor leaders, and innocent civilians were harassed, arrested, tortured, raped, murdered, or 'disappeared.' Many studies have been done about this phenomenon in the other areas of Latin America, but strangely, Mexico's dirty war has been excluded from this particular scholarship. Here for the first time is a sustained look at this period and consideration of the many facets that make up the nearly two decades of the Mexican dirty war. Offering the reader a broad perspective of the period, the case studies in the book present narratives of particular armed revolutionary movements as well as thematic essays on gender, human rights, culture, student radicalism, the Cold War, and the international impact of this state-sponsored terrorism.

between two armies in the ixil towns of guatemala david stoll: Rebels From the Mud Houses George Kunnath, 2017-07-14 This book examines Dalit mobilization and the transformation of rural power relations in the context of intense agrarian violence involving Maoist guerrillas and upper caste militias backed by state forces in Bihar in the 1980s. The book investigates why thousands of Dalits took up arms and highlights the specificities of Dalit participation in the Maoist Movement and develops an anthropology of the Maoist Revolution in India. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

between two armies in the ixil towns of guatemala david stoll: Holocaust Consciousness and Cold War Violence in Latin America Estelle Tarica, 2022-04-01 This book proposes the existence of a recognizably distinct Holocaust consciousness in Latin America since the 1970s. Community leaders, intellectuals, writers, and political activists facing state repression have seen themselves reflected in Holocaust histories and have used Holocaust terms to describe human rights atrocities in their own countries. In so doing, they have developed a unique, controversial approach to the memory of the Holocaust that is little known outside the region. Estelle Tarica deepens our understanding of Holocaust awareness in a global context by examining diverse Jewish and non-Jewish voices, focusing on Argentina, Mexico, and Guatemala. What happens, she asks, when we find the Holocaust invoked in unexpected places and in relation to other events, such as the Argentine Dirty War or the Mayan genocide in Guatemala? The book draws on meticulous research in two areas that have rarely been brought into contact—Holocaust Studies and Latin American Studies—and aims to illuminate the topic for readers who may be new to the fields.

between two armies in the ixil towns of guatemala david stoll: Terror in the Land of the Holy Spirit Virginia Garrard-Burnett, Virginia Garrard, 2010-01-15 Between 1982 and 1983, in the name of anti-communism the military government of Guatemala prosecuted a scorched-earth campaign of terror against largely Mayan rural communities. Under the leadership of General Efraín Ríos Montt, tens of thousands of people perished in what is now known as *la violencia*, or 'the Mayan holocaust.' Ríos Montt, Guatemala's president-by-coup was, and is, an outspokenly born-again Pentecostal Christian - a fact that would seem to be at odds with the atrocities that took place on his watch. Virginia Garrard-Burnett's book is the first in English to view the Ríos Montt era through the lens of history. Drawing on newly-available primary sources such as guerrilla documents, evangelical pamphlets, speech transcripts, and declassified US government records, she is able to provide a fine-grained picture of what happened during Ríos Montt's rule. Looking back over Guatemalan history between 1954 and the late 1970s, she finds that three decades of war engendered an ideology of violence that cut across class, cultures, communities, religions, and even families. Many Guatemalans converted to Pentecostalism during this period, she says, because of the affinity between these churches' apocalyptic message and the violence of their everyday reality. Examining the role of outside players and observers: The US government, evangelical groups, and the media, she contends that self-interest, willful ignorance, and distraction permitted the human rights

tragedies within Guatemala to take place without challenge from the outside world.

between two armies in the ixil towns of guatemala david stoll: Religious Freedom and Evangelization in Latin America Paul E. Sigmund, 2009-05-01 In his introduction, Paul Sigmund states that the growing religious pluralism in Latin America is one of several reasons why the trend toward democracy that has marked the last two decades may endure. Nevertheless, Sigmund notes that this new pluralism, particularly the growth of Protestantism, has led to tensions that must be resolved. *Religious Freedom and Evangelization in Latin America* provides an indispensable resource for understanding the range of issues confronting the continent, offering Catholic as well as Protestant perspectives, and trenchant analyses of the situation in different countries, including Brazil, Argentina, Mexico, Nicaragua, and Cuba.

between two armies in the ixil towns of guatemala david stoll: A Century of Revolution Gilbert M. Joseph, Greg Grandin, 2010-10-21 A collection exploring the ideological hardening and accelerated polarization that marked twentieth-century Latin America and its epochal cycles of revolutionary and counterrevolutionary violence.

between two armies in the ixil towns of guatemala david stoll: The Art of Political Murder Francisco Goldman, 2008-09-16 In this New York Times Notable Book, the Pulitzer Prize-finalist undertakes his own investigation into the murder of a Guatemalan bishop. Named a Best Book of the Year by the Washington Post Book World, the Chicago Tribune, the Economist, and the San Francisco Chronicle Two days after releasing a groundbreaking church-sponsored report implicating the military in the murders and disappearances of some two hundred thousand Guatemalan civilians, Bishop Juan Gerardi was bludgeoned to death in his garage. Gerardi was the country's leading human rights activist, but the Church quickly realized it could not rely on police investigators or the legal system to solve the crime. Instead, Church leaders formed their own investigative team: a group of secular young men who called themselves Los Intocables—the Untouchables. Author Francisco Goldman spoke to witnesses no other reporter was able to reach, observing firsthand some of the most crucial developments in this sensational case. Documenting the Latin American reality of mara youth gangs and organized crime, *The Art of Political Murder* tells the incredible true story of Los Intocables and their remarkable fight for justice. "Becoming by turns a little bit Columbo, Jason Bourne and Seymour Hersh, Goldman gives us the anatomy of a crime while opening a window to a misunderstood neighboring country that is flirting with anarchy." —The New York Times Book Review

between two armies in the ixil towns of guatemala david stoll: Women and War in the Twentieth Century Nicole A. Dombrowski, 2004-11-23 First published in 2005. This volume documents women's 20th century wartime experiences from World War I through the recent conflicts in Bosnia. The articles cross national boundaries including France, China, Peru, Guatemala, Germany, Bosnia, the U.S. and Great Britain.. The contributors of these original essays trace the evolution of women's roles as victims of war while also showing how they have been increasingly incorporated into battle as actors and perpetrators. These comparative studies analyze war's disruptions of daily life, its effects on children, rape as a war crime, access to equal opportunity, and women's resistance to violence.

between two armies in the ixil towns of guatemala david stoll: The Cambridge World History of Genocide: Volume 3, Genocide in the Contemporary Era, 1914-2020 Ben Kiernan, Wendy Lower, Norman Naimark, Scott Straus, 2023-05-04 Volume III examines the most well-known century of genocide, the twentieth century. Opening with a discussion on the definitions of genocide and 'ethnic cleansing' and their relationships to modernity, it continues with a survey of the genocide studies field, racism and antisemitism. The four parts cover the impacts of Racism, Total War, Imperial Collapse, and Revolution; the crises of World War Two; the Cold War; and Globalization. Twenty-eight scholars with expertise in specific regions document thirty genocides from 1918 to 2021, in Europe, the Middle East, Africa, Asia, and Latin America. The cases range from the Armenian Genocide to Maoist China, from the Holocaust to Stalin's Ukraine, from Indonesia to Guatemala, Biafra, Bangladesh, Cambodia, Bosnia and Rwanda, and finally the

contemporary fate of the Rohingyas in Myanmar and the ISIS slaughter of Yazidis in Iraq. The volume ends with a chapter on the strategies for genocide prevention moving forward.

between two armies in the ixil towns of guatemala david stoll: Wars of Latin America, 1982-2013 René De La Pedraja, 2013-10-04 This book, continuing the narrative begun by the author in two preceding volumes, provides a clear description of military combat occurring in Latin America for the years from 1982 into mid-2013. Although the text concentrates on combat operations, matters of politics, business and international relations appear as necessary to understand the wars. The author has uncovered many previously unknown sources to provide new information never published before. The book traces the many insurgencies in Latin America as well as conventional wars. Among the highlights are the chapters on the Falklands War and the U.S. invasions of Grenada and Panama. One useful aspect of the text is an explanation of why, of the many insurgencies appearing in Latin America, only those in Cuba and Nicaragua were successful in overthrowing governments. The book also helps explain why even unsuccessful insurgencies have survived for decades, as has happened in Colombia and Peru. Instructors considering this book for use in a course may request an examination copy [here](#).

between two armies in the ixil towns of guatemala david stoll: The Character of War in the 21st Century Caroline Holmqvist-Jonsäter, Christopher Coker, 2009-12-04 This edited volume addresses the relationship between the essential nature of war and its character at the beginning of the twenty-first century. The focus is on the conflicts in Iraq and Afghanistan, situations that occupy a central role in international affairs and that have become highly influential in thinking about war in the widest sense. The intellectual foundation of the volume is Clausewitz's insight that though war has an enduring nature, its character changes with time, space, social structure and culture. The fact that war's character varies means that different actors may interpret, experience and, ultimately, wage war differently. The conflict between the ways that war is conceptualised in the prevailing Western and international discourse, and the manner in which it plays out on the ground is a key discussion point for scholars and practitioners in the field of international relations. Contributions combine insights from social theory, philosophy, sociology and strategic studies and ask directly what contemporary war is, and what the implications are for the future. This book will be of much interest to students of war studies, strategic studies, security studies and IR in general. Caroline Holmqvist-Jonsäter is currently completing a PhD in the conflation of war and policing in international conflicts at the Department of War Studies, King's College London. Christopher Coker is Professor of International Relations at the London School of Economics and Political Science (LSE). He is the author of 11 books on war and security issues.

between two armies in the ixil towns of guatemala david stoll: Guatemalans in the Aftermath of Violence Kristi Anne Stølen, 2007-06-13 In this study of Guatemalan peasants rebuilding their lives after years in the crossfire, anthropologist Kristi Anne Stølen examines the dynamics of violence, survival strategies in situations of extreme violence, and social reconstruction in its aftermath.

between two armies in the ixil towns of guatemala david stoll: Of Wonders and Wise Men Terry Rugeley, 2009-03-06 2004 - Harvey L. Johnson Award - Southwest Council of Latin American Studies In the tumultuous decades following Mexico's independence from Spain, religion provided a unifying force among the Mexican people, who otherwise varied greatly in ethnicity and socioeconomic status. Accordingly, religion and the popular cultures surrounding it form the lens through which Terry Rugeley focuses this cultural history of southeast Mexico from independence (1821) to the rise of the dictator Porfirio Díaz in 1876. Drawing on a wealth of previously unused archival material, Rugeley vividly reconstructs the folklore, beliefs, attitudes, and cultural practices of the Maya and Hispanic peoples of the Yucatán. In engagingly written chapters, he explores folklore and folk wisdom, urban piety, iconography, and anticlericalism. Interspersed among the chapters are detailed portraits of individual people, places, and institutions, that, with the archival evidence, offer a full and fascinating history of the outlooks, entertainments, and daily lives of the inhabitants of southeast Mexico in the nineteenth century. Rugeley also links this rich local history

with larger events to show how macro changes in Mexico affected ordinary people.

between two armies in the ixil towns of guatemala david stoll: Incredible Commitments Anjali Kaushlesh Dayal, 2021-09-23 Even when they don't want peace, combatants seek out UN peacemaking for its unique tactical, material, and symbolic benefits.

between two armies in the ixil towns of guatemala david stoll: The Politics of the Spirit Timothy J. Steigenga, 2002-05-24 The Politics of the Spirit is a masterful study of the political effects of evangelical Protestantism in Central America. Timothy Steigenga's thoughtfully crafted work questions whether the spread of Protestantism in Latin America has reinforced authoritarian elements in political culture or deepened nascent democracy. Steigenga provides a thorough review of the literature on religion and politics in Latin America, putting many of the hypotheses generated in this literature to the test through an analysis of comparative survey data and qualitative interviews. Steigenga investigates the impact religious affiliation has on political activity and belief, and the influence of cross-denominational religious beliefs and practices on Latin American life. His comparative work explores how different political systems--the established democracy of Costa Rica and the transitional system of Guatemala--impact the politics of religion. This enlightening interdisciplinary book will appeal to scholars seeking to understand the relationships between religious and political change in Latin America.

between two armies in the ixil towns of guatemala david stoll: Power, Politics, And Pentecostals In Latin America Edward L Cleary, 2018-02-07 Today over forty million Latin Americans classify themselves as Protestant, of which the overwhelming majority belong to some form of Pentecostalism. The rapid dissemination of Pentecostal beliefs has produced vibrant alternatives to traditional dominant culture and changed relations within the family, locality, and workplace. This volume introduces broad issues in the Pentecostal movement, including gender relations, political power and organization, and inter-Pentecostal and ecumenical relations. These themes are then examined more specifically in the country case studies, which address the historical foundations of the Pentecostal movement, patterns of and explanation for its growth, and the consequences of its expanding presence, including increased political influence.

between two armies in the ixil towns of guatemala david stoll: The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter-insurgent security forces has risen markedly since the Second World War just as those of conventional, or inter-state wars have declined. For several decades, conflicts within states rather than between them have been the prevalent form of organised political violence worldwide. Recent conflicts in Afghanistan, Iraq, and Syria have fired interest in colonial experiences of rebellion, while current western interventions in sub-Saharan Africa have prompted accusations of 'militarist humanitarianism'. Yet, despite mounting interest in counter-insurgency and empire, comparative investigation of colonial responses to insurrection and civil disorder is sparse. Some scholars have written of a 'golden age of counter-insurgency', which began with Britain's declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973. It is with this period, if not with any presumed 'golden age' that this volume is concerned. This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires. It attempts a systematic study of the global effects of organized anti-colonial violence in Asia and Africa. The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it.

between two armies in the ixil towns of guatemala david stoll: The Spirit Poured Out on All Flesh Amos Yong, 2005-07-01 The Pentecostal movement has had an incredible impact on the shape of worldwide Christianity in the past century. Estimates are that Pentecostals and charismatics make up approximately one-fourth of Christians worldwide, and the numbers are only expected to grow. With these developments comes the need for thoughtful Christians of all persuasions to better understand Pentecostal theology. In fact, Amos Yong believes that Pentecostal

theology can be a great gift to the church at large. Yong presents a thoroughly Pentecostal theology of salvation, the church, the nature of God, and creation. He also provides a fascinating survey of the state of worldwide Pentecostalism, examining how Pentecostal theology is influencing Christian churches in other countries.

between two armies in the ixil towns of guatemala david stoll: Forced Marches Ben Fallaw, Terry Rugeley, 2012-10-21 *Forced Marches* is a collection of innovative essays that analyze how the military experience molded Mexican citizens in the years between the initial war for independence in 1810 and the consolidation of the revolutionary order in the 1940s. The contributors—well-regarded scholars from the United States and the United Kingdom—offer fresh interpretations of the Mexican military, caciquismo, and the enduring pervasiveness of violence in Mexican society. Employing the approaches of the new military history, which emphasizes the relationships between the state, society, and the “official” militaries and “unofficial” militias, these provocative essays engage (and occasionally do battle with) recent scholarship on the early national period, the Reform, the Porfiriato, and the Revolution. When Mexico first became a nation, its military and militias were two of the country’s few major institutions besides the Catholic Church. The army and local provincial militias functioned both as political pillars, providing institutional stability of a crude sort, and as springboards for the ambitions of individual officers. Military service provided upward social mobility, and it taught a variety of useful skills, such as mathematics and bookkeeping. In the postcolonial era, however, militia units devoured state budgets, spending most of the national revenue and encouraging locales to incur debts to support them. Men with rifles provided the principal means for maintaining law and order, but they also constituted a breeding-ground for rowdiness and discontent. As these chapters make clear, understanding the history of state-making in Mexico requires coming to terms with its military past.
