just a closer walk with thee hymn: Presidential Praise C. Edward Spann, Michael Edward Williams, 2008 Presidential Praise: Our Presidents and Their Hymns offers the most comprehensive coverage ever written of the influence of hymns on the lives and administrations of America's presidents. Each chapter begins with Michael Williams's concise presentation of each president's path to the White House and his accomplishments and failures as president. C. Edward Spann then introduces how each president regarded music, whether or not he was musical, and music in the White House during each president's administration. These hymns may be related to developments in the life of the president, including his spiritual journey, major decisions he had to make as president, or even his selection of the inaugural Scripture. Spann then tells the story of how the hymn was written, both the words and the music. Presenting this scholarly material in an inspiring manner is part of the delight of the book. In doing so, the book covers a panorama of hymnody from 1614 to the 1980s. After an interpretation of the words, it is demonstrated why the chosen hymns were meaningful to each president. The format of each chapter reveals this special emphasis that can't be found elsewhere.

just a closer walk with thee hymn: Decolonizing Contemporary Gospel Music Through Praxis Robert Beckford, 2023-08-24 Is contemporary Black British gospel music a coloniality? What theological message is really conveyed in these songs? In this book, Robert Beckford shows how the

Black British contemporary gospel music tradition is in crisis because its songs continue to be informed by colonial Christian ideas about God. Beckford explores the failure of both African and African Caribbean heritage Churches to Decolonise their faith, especially the doctrine of God, biblical interpretation and Black ontology. This predicament has left song leaders, musicians and songwriters with a reservoir of ideas that aim to disavow engagement with the social-historical world, black Biblical interpretation and the necessity of loving blackness. This book is decolonisation through praxis. Reflecting on the conceptual social justice album 'The Jamaican Bible Remix' (2017) as a communicative resource, Beckford shows how to develop production tools to inscribe decolonial theological thought onto Black British music(s). The outcome of this process is the creation of a decolonial contemporary gospel music genre. The impact of the album is demonstrated through case studies in national and international contexts.
