a picture of george washington carver: Racechanges Susan Gubar, 2000-04-20 When the actor Ted Danson appeared in blackface at a 1993 Friars Club roast, he ignited a firestorm of protest that landed him on the front pages of the newspapers, rebuked by everyone from talk show host Montel Williams to New York City's then mayor, David Dinkins. Danson's use of blackface was shocking, but was the furious pitch of the response a triumphant indication of how far society has progressed since the days when blackface performers were the toast of vaudeville, or was it also an uncomfortable reminder of how deep the chasm still is separating black and white America? In *Racechanges: White Skin, Black Face in American Culture*, Susan Gubar, who fundamentally changed the way we think about women's literature as co-author of the acclaimed *The Madwoman in the Attic*, turns her attention to the incendiary issue of race. Through a far-reaching exploration of the long overlooked legacy of minstrelsy--cross-racial impersonations or racechanges--throughout modern American film, fiction, poetry, painting, photography, and journalism, she documents the indebtedness of mainstream artists to African-American culture, and explores the deeply conflicted psychology of white guilt. The fascinating racechanges Gubar discusses include whites posing as blacks and blacks passing for white; blackface on white actors in *The Jazz Singer*, *Birth of a Nation*, and other movies, as well as on the faces of black stage entertainers; African-American deployment of racechange imagery during the Harlem Renaissance, including the poetry of Anne Spencer, the black-and-white prints of Richard Bruce Nugent, and the early work of Zora Neale Hurston; white poets and novelists from Vachel Lindsay and Gertrude Stein to John Berryman and William Faulkner writing as if they were black; white artists and writers fascinated by hypersexualized stereotypes of black men; and nightmares and visions of the racechanged baby. Gubar shows that unlike African-Americans, who often are forced to adopt white masks to gain their rights, white people have chosen racial masquerades, which range from mockery and mimicry to an evolving emphasis on inter-racial mutuality and mutability. Drawing on a stunning array of illustrations, including paintings, film stills, computer graphics, and even magazine morphings, *Racechanges* sheds new light on the persistent pervasiveness of racism and exciting aesthetic possibilities for lessening the distance between blacks and whites.

a picture of george washington carver: Washington's Crossing David Hackett Fischer, 2006-02-01 Six months after the Declaration of Independence, the American Revolution was all but lost. Yet, as David Hackett Fischer recounts in this riveting history, George Washington--and many other Americans--refused to let the Revolution die. On Christmas night, as a howling nor'easter struck the Delaware Valley, he led his men across the river and attacked the exhausted Hessian garrison at Trenton, killing or capturing nearly a thousand men. A second battle of Trenton followed within days. The Americans held off a counterattack by Lord Cornwallis's best troops, then were almost trapped by the British force. Under cover of night, Washington's men stole behind the enemy and struck them again, defeating a brigade at Princeton. The British were badly shaken. In twelve weeks of winter fighting, their army suffered severe damage, their hold on New Jersey was broken, and their strategy was ruined.
