THE GIFT OF A BOOK BECOMES PART OF THE STORY OF YOUR LIFE. Perhaps it came with a note as simple as "This made me think of you," but it takes up residence in your heart and your home. The Books They Gave Me is a mixtape of stories behind books given and received. Some of the stories are poignant, some snarky, some romantic, some disastrous—but all are illuminating. Jen Adams collected nearly two hundred of the most provocative stories submitted to the tumblr blog TheBooksTheyGaveMe.com to capture the many ways books can change our lives and loves, revealing volumes about the relationships that inspired the gifts. These stories are, by turns, romantic, cynical, funny, dark, and hopeful. There's the poorly thought out gift of *Lolita* from a thirty-year-old man to a teenage girl. There's the couple who tried to read *Ulysses* together over the course of their long-distance relationship and never finished it. There's the girl whose school library wouldn't allow her to check out *Fahrenheit 451*, but who received it at Christmas with the note, "Little Sister: Read everything you can. Subvert Authority! interpreter of maladies full text: New Maladies of the Soul Julia Kristeva, 2025-01-14 These days, who still has a soul? asks Julia Kristeva in this psychoanalytic exploration. Drawing on her many years of experience as a practicing psychoanalyst, Kristeva reveals to readers a new kind of patient, symptomatic of an age of political upheaval, mass mediated culture, and the dramatic overhaul of familial and sexual mores. *New Maladies of the Soul* poses a troubling question about

the human subject in the West today: Is the psychic space that we have traditionally known disappearing? Kristeva finds that the psychoanalytic models of Freud and Lacan need to be reread in light of this new patient, a product of the contemporary moral crisis of values resulting from a loss of ideology and a deterioration of belief. By revisiting Freud and Lacan, Kristeva offers the hope of a new psychoanalysis. Each patient, she contends, suffers from a unique malady which must be targeted. In the first half of the book, Kristeva offers a series of detailed case studies that reinforce her provocative theoretical notions. These case studies illustrate today's new maladies—common psychiatric disturbances as they are manifested in today's patient. Drawing on the work of the psychologist Helene Deutsch and the writer Germaine de Stael. Kristeva turns her attention to women's experiences and contributions. Delving into art, literature, autobiography, and theories of language, she continues with an exploration of cultural products ranging from the Bible to the work of Leonardo da Vinci. Kristeva offers the hope that these maladies harbor new creative potential and new hope for the soul—if we can comprehend their effect on the individual and collective experiences of our time.

interpreter of maladies full text: The Index of Middle English Prose Linne R. Mooney, 2007
The Library of Trinity College, Cambridge, contains the largest collection of medieval manuscripts of any college in Great Britain, and one of the most important collections in the world. The subjects contained therein cover the whole range of topics usual to medieval manuscripts, with the single bias being that the majority were produced in Britain. Particularly noteworthy are Wycliffite translations of the Bible, sermons, and Wycliffite tracts; three manuscripts containing Nicholas Love's 'Mirror of the Blessed Lif of Ihesu Crist'; and major collections of devotional texts. Trinity is also rich in medieval scientific manuscripts, many of which came through Roger Gale's interest in this field; they include a number of large medical manuscripts whose compilers were apparently trying to bring together much of the current knowledge of the day, from tracts by such men as John of Arderne and Gilbertus Angelicus, with recipes for treatments, under a single cover. The collection also contains major compilations of alchemical tracts; historical and legal material; and unique Middle English translations of classical and early medieval texts. Finally, a number of known Middle English texts not previously thought to be in the Trinity Collection are identified, opening new areas for study of Trinity's manuscripts, especially the medical and scientific texts which have much to tell of scientific learning in England in the later middle ages. LINNE R. MOONEY is Associate Professor of English at the University of Maine (and a former graduate of the Center for Medieval Studies at Toronto).

interpreter of maladies full text: Politics and Poetics of Belonging Mounir Guirat, 2018-04-18
The contributions gathered in this volume bear witness to the fact that belonging is a multi-faceted concept that necessitates different and shifting idioms of expression. It continually requires reconsideration and redefinition of our affiliations in response to the rapid social, cultural,

and political changes of our world. The literary paradigms, linguistic practices, and cultural formations of belonging testify to the impossibility of confining it to conventional and established structures of knowledge. The different reflections on belonging introduced in this book are instrumental in reassessing and remodelling the general assumptions that have informed its definition and representation. The current global reality and the self-other encounter make inevitable the continuous search for new forms of belonging that are in tune with one's evolving and changing sense of self. Theoretically informed by and substantially grounded in lively and heated debates on cultural identity and belonging, this book proposes new critical directions in understanding national and transnational belonging.

With this one relatively short volume, the novice reader will develop the literary competence necessary to read and interpret Akkadian texts in translation and will gain a broad familiarity with the major genres and compositions in the language. The first part of the book presents introductory discussions of major critical issues, organized under four key rubrics: tablets, scribes, compositions, and audiences. Here, the reader will find descriptions of the tablets used as writing material; the training scribes received and the institutional contexts in which they worked; the general characteristics of Akkadian compositions, with an emphasis on poetic and literary features; and the various audiences or users of Akkadian texts. The second part surveys the corpus of Akkadian literature defined inclusively, canvassing a wide spectrum of compositions. Legal codes, historical inscriptions, divinatory compendia, and religious texts have a place in the survey alongside narrative poems, such as the Epic of Gilgamesh, Enuma elish, and Babylonian Theodicy. Extensive footnotes and a generous bibliography guide readers who wish to continue their study. Essential for students of Assyriology, *An Introduction to Akkadian Literature* will also prove useful to biblical scholars, classicists, Egyptologists, ancient historians, and literary comparativists.

interpreter of maladies full text: *The Bad Corset* Rebecca Gibson, 2024-10-03 Both a translation and critique of an early 20th century seminal French text on the physical effects of corseting, *The Bad Corset* explores contemporary anti-woman bias to challenge the commonly accepted assertions about corsetry's contribution to disease, disfigurement, and disorders of the

female body. The original 1908 French book, *Le Corset* by Ludovic O'Followell-with its graphic illustrations, some of which are reproduced here-tells a story, familiar to anyone interested in popular culture and fashion history, of women suffering for fashion, tormented by and subject to their corsets. However, a close reading of the texts tells a very different, and more complicated, story. This fascinating exploration, approaching the topic from a scientific perspective, and reproducing facsimiles of the original text, with translations and annotations, critiques the presumptions and anxieties of male medical professionals on the 'damage' caused by corsets to the female body and psyche. Rather than seeing the women who wore these perceived instruments of torture as victims or dupes, *The Bad Corset* confidently asserts the agency of the women who wore them and highlights the way in which seminal texts can continue to influence our interpretation of the past, and women's lives and histories. *The Bad Corset* is a remarkable resource for scholars and students of fashion, medicine and gender history, taking a feminist approach to female agency and choice, and helping us reconsider the way we think about the shaping of women's bodies, and their lives.

interpreter of maladies full text: Young Scholars' Developments in Philology Yulia Lobina, 2018-10-12 Culture as a way of bringing meaning into life is maintained through discourse. In search of factors influencing discourse effectiveness, this volume brings together young scholars from Russia, France, Pakistan, Slovakia and Lebanon to focus on variation as an essential feature of meaning producing communication, in its multiple aspects and settings. The book is based on papers presented during online sessions on cross-cultural discourse, literary analysis and language education of the 7th International Young Researchers Conference "Studying and Teaching Philology" held in Ulyanovsk, Russia, in 2017. In Part I, Irina Zhuchkova explores variation in academic discourse on discourse. In the first two chapters of Part II Hibah Shabkhez discusses the interaction of various culture codes and transformations of a literary character travelling from one fictional world into another, and, in the next chapter, Hibah Shabkhez, Ibreez Shabkhez and Azka Mahboob analyse the divergence of stances taken on the same character by its creator and the readers. In the final chapters of this section, Ibreez Shabkhez and Maksim Duleba uncover mechanisms of expressing conflicting stances, with the result of marginalising discourse participants, including the stance-taker himself. Roksolana Povoroznyuk in Part III examines the interpreter's choices in mediating cross-cultural literary discourse, concentrating on paratranslational techniques and terminological variation, both of which involve a lot of translatorial freedom and responsibility. Finally, Part IV by Christelle Frangieh Fenianos addresses the issue of the second language learner's freedom in choosing the ways of acquiring vocabulary, which serves as a gate to the world of cross-cultural communication. This book will be of interest to researchers, postgraduate students and advanced undergraduates working in the fields of philology, discourse analysis, literature and translation studies, and language acquisition.
