Representations in children's literature influenced by the impact of the Enlightenment, the Empire, the Holocaust and 9/11 reveal an ongoing concern with establishing, maintaining or problematising the boundaries between Jews and Gentiles. Chapters on gender, refugees, multiculturalism and historical fiction argue that literature for young people demonstrates that the position of Jews in Britain has been ambivalent, and that this ambivalence has persisted to a surprising degree in view of the dramatic socio-cultural changes that have taken place over two centuries. Donelson, Alleen Pace Nilsen, 1997 With 140 fewer pages than the fourth edition, the fifth obviously has been tightened; it's partly in the format, with narrower margins and less white space. Otherwise, some text has been rephrased or rearranged and topics (for example, adolescent psychology) given shorter shrift. Coverage of Holocaust literature has been expanded, and discussion of problem novels improved. Sports books have been dumped in with humor, movies, and other stuff, including humorous poetry, which, it seems, the authors feel is the only kind teens read for pleasure; other types of poetry as well as short stories and drama are relegated to the English classroom, coverage of which has been enlarged. The chapter on sf and fantasy is good on historical aspects but weak on today's writers.
