city of heavenly fire quotes: The Divine Comedy of Dante Alighieri Dante Alighieri, 1996-02-29 This first volume of Robert Durling's new translation of The Divine Comedy brings a new power and accuracy to the rendering of Dante's extraordinary vision of Hell, with all its terror, pathos, and humor. Remarkably true to both the letter and spirit of this central work of Western literature, Durling's is a prose translation (the first to appear in twenty-five years), and is thus free of the exigencies of meter and rhyme that hamper recent verse translations. As Durling notes, the closely literal style is a conscious effort to convey in part the nature of Dante's Italian, notoriously

craggy and difficult even for Italians. Rigorously accurate as to meaning, it is both clear and supple, while preserving to an unparalleled degree the order and emphases of Dante's complex syntax. The Durling-Martinez *Inferno* is also user-friendly. The Italian text, newly edited, is printed on each verso page; the English mirrors it in such a way that readers can easily find themselves in relation to the original terza rima. Designed with the first-time reader of Dante in mind, the volume includes comprehensive notes and textual commentary by Martinez and Durling: both are life-long students of Dante and other medieval writers (their *Purgatorio* and *Paradiso* will appear next year). Their introduction is a small masterpiece of its kind in presenting lucidly and concisely the historical and conceptual background of the poem. Sixteen short essays are provided that offer new inquiry into such topics as the autobiographical nature of the poem, Dante's views on homosexuality, and the recurrent, problematic body analogy (Hell has a structure parallel to that of the human body). The extensive notes, containing much new material, explain the historical, literary, and doctrinal references, present what is known about the damned souls Dante meets --from the lovers who spend eternity in the whirlwind of their passion, to Count Ugolino, who perpetually gnaws at his enemy's skull--disentangle the vexed party politics of Guelfs and Ghibellines, illuminate difficult and disputed passages, and shed light on some of Dante's unresolved conflicts. Robert Turner's illustrations include detailed maps of Italy and several of its regions, clearly labeled diagrams of the cosmos and the structure of Hell, and eight line drawings illustrating objects and places mentioned in the poem. With its exceptionally high standard of typography and design, the Durling-Martinez *Inferno* offers readers a solid cornerstone for any home library. It will set the standard for years to come.

city of heavenly fire quotes: Dictionary of the Old Testament: Prophets G MCCONVILLE, MARK J BODA, 2020-05-21 The writings of the prophets make up over a quarter of the Old Testament. But perhaps no other portion of the Old Testament is more misunderstood by readers today. For some, prophecy conjures up knotted enigmas, opaque oracles and terrifying visions of the future. For others it raises expectations of a plotted-out future to be reconstructed from disparate texts. And yet the prophets have imprinted the language of faith and imagination with some of its most sublime visions of the future - nations streaming to Zion, a lion lying with a lamb, and endlessly fruiting trees on the banks of a flowing river. We might view the prophets as stage directors for Israel's unfolding drama of redemption. Drawing inspiration from past acts in that drama and invoking fresh words from its divine author, these prophets speak a language of sinewed poetry, their words and images arresting the ear and detonating in the mind. For when Yahweh roars from Zion and thunders from Jerusalem, the pastures of the shepherds dry up, the crest of Carmel withers, and the prophetic word buffets those selling the needy for a pair of sandals. The *Dictionary of the Old Testament: Prophets* is the only reference book of its kind. Not only does it focus

exclusively on the prophetic books; it also plumbs their imagery of mountains and wilderness, flora and fauna, temple and Zion. It maps and guides us through topics such as covenant and law, exile and deliverance, forgiveness and repentance, and the Day of the Lord. Here the nature of prophecy is searched out in its social, historical, literary and psychological dimensions as well as its synchronic spread of textual links and associations. And the formation of the prophetic books into their canonical collection, including the Book of the Twelve, is explored and weighed for its significance. Then too, contemporary approaches such as canonical criticism, conversation analysis, editorial/redaction criticism, feminist interpretation, literary approaches and rhetorical criticism are summed up and assayed. Even the afterlife of these great texts is explored in articles on the history of interpretation as well as on their impact in the New Testament.

city of heavenly fire quotes: *The Holy Bible* Adam Clarke, 1818

city of heavenly fire quotes: *Hebrews and Divine Speech* Jonathan I. Griffiths, 2015-01-29 The theme of divine speech appears at the opening of the Hebrews (1.1-2) and recurs throughout the book, often in contexts suggesting connections to other areas of scholarly interest (christology, soteriology, cosmology, and the writer's understanding of the nature of his discourse). Griffiths begins with a consideration of the genre and structure of Hebrews (offering a new structural outline), concluding that Hebrews constitutes the earliest extant complete Christian sermon and consists of a series of Scriptural expositions. Griffiths then turns to consider Hebrews' theology of divine speech through an exegetical analysis of eight key passages (with particular attention to the writer's use of the terms logos and rhema), and finds that, for the writer, God's speech is the means by which the place of divine rest is accessed, and is supremely expressed in the person of his Son. Griffiths concludes that the writer presents his sermon as communicating the divine word and effecting an encounter between his hearers and the God who speaks. Analysis of the exegetical data shows that Hebrews presents God's word, which finds full expression in the incarnate Christ, as the central means by which salvation is made available and the place of divine rest is accessed. The study finds that the terms logos and rhema are used with a high degree of consistency to signify forms of divine speech, logos usually signifying verbal revelation (and three times specifically identifying the author's own discourse) and rhema typically signifying non-verbal revelation in the cosmos. The investigation leads to the ultimate conclusion that the author believes that, through his discourse, he himself communicates that divine word and effects an encounter between his hearers and the God who speaks.
