o brother where art thou sheet music: Highway 61 Revisited Gene Santoro, 2004-05-20 What do Louis Armstrong, Ray Charles, Bob Dylan, Willie Nelson, Tom Waits, Cassandra Wilson, and Ani DiFranco have in common? In *Highway 61 Revisited*, acclaimed music critic Gene Santoro says the answer is jazz—not just the musical style, but jazz’s distinctive ambiance and attitudes. As legendary bebop rebel Charlie Parker once put it, If you don’t live it, it won’t come out of your horn. Unwinding that Zen-like statement, Santoro traces how jazz’s existential art has infused outstanding musicians in nearly every wing of American popular music—blues, folk, gospel, psychedelic rock, country, bluegrass, soul, funk, hip-hop—with its parallel process of self-discovery and artistic creation through musical improvisation. Taking less-traveled paths through the last century of American pop, *Highway 61 Revisited* maps unexpected musical and cultural links between such apparently disparate figures as Louis Armstrong, Willie Nelson, Bob Dylan and Herbie Hancock; Miles Davis, Lenny Bruce, The Grateful Dead, Bruce Springsteen, and many others. Focusing on jazz’s power to connect, Santoro shows how the jazz milieu created a fertile space where whites and blacks could meet in America on something like equal grounds, and indeed where art and entertainment, politics and poetry, mainstream culture and its subversive offshoots were drawn together in a heady mix whose influence has proved both far-reaching and seemingly inexhaustible. Combining interviews and original research, and marked throughout by Santoro’s wide ranging grasp of cultural history, *Highway 61 Revisited* offers readers a new look at—and a new way of listening to—the many ways jazz has colored the entire range of American popular music in all its dazzling profusion.

o brother where art thou sheet music: Finding Purple America Jon Smith, 2013-05-01 The new southern studies has had an uneasy relationship with both American studies and the old southern studies. In *Finding Purple America*, Jon Smith, one of the founders of the new movement, locates the source of that unease in the fundamentally antimodern fantasies of both older fields. The old southern studies tends to view modernity as a threat to a mystic southern essence—a dangerous outside force taking the form of everything from a bulldozer revolution to a national project of forgetting. Since the rise of the New Americanists, American studies has also imagined itself to be in a permanent crisis mode, seeking to affiliate the field and the national essence with youth countercultures that sixties leftists once imagined to be the future. Such fantasies, Smith argues, have resulted in an old southern studies that cannot understand places like Birmingham or Atlanta

(or cities at all) and an American studies that cannot understand red states. Most Americans live in neither a comforting, premodern Mayberry nor an exciting, postmodern Los Angeles but rather in what postcolonialists call alternative modernities and hybrid cultures whose relationships to past and future, to stability and change, are complex and ambivalent. Looking at how the South has played in global metropolitan pop culture since the nineties and at how southern popular and high culture alike have, in fact, repeatedly embraced urban modernity, Smith masterfully weaves together postcolonial theory, cultural studies, Lacanian psychoanalysis, and, surprisingly, marketing theory to open up the inconveniently in-between purple spaces and places that Americanist and southernist fantasies about who we are have so long sought to foreclose.

o brother where art thou sheet music: A Wild and Sacred Call Will W. Adams, 2023-02-01 Our current ecological derangement is not only a biological crisis but more deeply a crisis of consciousness, culture, and relationship. The core ethical responsibility of our contemporary era, therefore, and the aspiration of this ecopsychological/ecospiritual book, is to create a mutually enhancing relationship between humankind and the rest of nature. To address the urgent concerns of global warming, mass extinction, toxic environments, and our loss of conscious contact with the natural world, psychologist Will W. Adams weaves together insights from Zen Buddhism, Christian mysticism, phenomenology, psychoanalysis, and the practice of psychotherapy. Through a transpersonal, nondual, contemplative approach, Adams explores the fundamental malady of supposed separation (or dissociation): mind over body, self over others, my tribe over others', humans over the rest of nature. Instead of merely discussing these crucial issues in abstract terms, the book presents healing alternatives through storytelling, poetry, and theoretical inquiry. Written in an engaging, down-to-earth manner grounded in vivid descriptions of actual lived experience, *A Wild and Sacred Call* speaks across disciplines to students, experts, and nonspecialists alike.

What do all these artists and music styles have in common? The answer is a record label born in the wake of the American folk revival and 1960s movement politics, formed around the eclectic tastes and audacious ideals of three recent college grads who lived, listened, and worked together. The answer is Rounder Records. For more than fifty years, Rounder has been the world's leading label for folk music of all kinds. David Menconi's book is the label's definitive history, drawing on previously untapped archives and extensive interviews with artists, Rounder staff, and founders Ken Irwin, Marian Leighton Levy, and Bill Nowlin. Rounder's founders blended ingenuity and independence with serendipity and an unfailing belief in the small-d democratic power of music to connect and inspire people, forging creative partnerships that resulted in one of the most eclectic and creative catalogs in the history of recorded music. Living and working in Rugby, Virginia (population 7), retired rural mail carrier Wayne Henderson is a true American original, making America's finest instruments using little more than a pile of good wood and a sharp whittling knife. There's a 10-year waiting list for Henderson's heirloom acoustic guitars—and even a musical legend like Eric Clapton must wait his turn. Partly out of self-interest, St. John prods Henderson into finally building Clapton's guitar, and soon we get to pull up a dusty stool and watch this Stradivari in glue-stained blue jeans work his magic.
