bill carter fools rush in: Boom, Bust, Boom Bill Carter, 2021-08-31 For most of recorded history, copper has proven invaluable: not only did the ancient Romans build their empire on mining copper but Christopher Columbus protected his ships from rot by lining their hulls with it. Today, this pliable and sturdy metal can be found in every house, car, airplane, cell phone, computer, and home appliance across the globe. Yet the history of copper extraction and our present relationship with the metal are fraught with profound difficulties. Copper mining causes irrevocable damage to the Earth, and the mines themselves have significant effects on the economies and wellbeing of the communities where they are located. Starting in his own backyard in the old mining town of Bisbee, Arizona--where he discovers that the dirt in his garden contains double the acceptable level of arsenic--Bill Carter follows the story of copper to the controversial Grasberg copper mine in Indonesia; to the ring at the London Metal Exchange, where a select group of traders buy and sell enormous amounts of the metal; and to an Alaskan salmon run threatened by mining. Page by page, Carter blends the personal and the international in a narrative that helps us understand the paradoxical relationship we have with copper, and the result is a work of first-rate journalism that fascinates on every level.

Writer and film-maker Tahir Shah - in his 30s, married, with two small children - was beginning to wilt under brash, cramped, enervating British city life. Flying in the face of friends' advice, he longed to fulfil his dream of finding a place bursting with life, colour, history and romance - somewhere far removed from London - in which to raise a family. Childhood memories of holidaying with his parents, and of a grandfather he barely knew, led him to Morocco and to 'Dar Khalifa', a sprawling and, with the exception of its jinns, long-abandoned residence on the edge of Casablanca's shanty town that, rumour had it, once belonged to the city's Caliph. And so begins Tahir Shah's gloriously vivid, funny, affectionate and compelling account of how he and his family - aided, abetted and so often hindered by a wonderful cast of larger-than-life

local characters: guardians, gardeners, builders, artisans, bureaucrats and police (not forgetting the jinns, the spirits that haunt the house) - returned the Caliph's House to its former glory and learned to make this most exotic and alluring of countries their home. The Caliph's House is a story of home-ownership abroad - full of the attendant dramas, anxieties and frustrations - but it is also much more. Woven into the narrative is the author's own journey of self-discovery, of learning about a grandfather he hardly knew, and of coming to love the magical, multi-faceted, contradictory country that is Morocco.

bill carter fools rush in: Blue Helmets and Black Markets Peter Andreas, 2011-08-15 The 1992-1995 battle for Sarajevo was the longest siege in modern history. It was also the most internationalized, attracting a vast contingent of aid workers, UN soldiers, journalists, smugglers, and embargo-busters. The city took center stage under an intense global media spotlight, becoming the most visible face of post-Cold War conflict and humanitarian intervention. However, some critical activities took place backstage, away from the cameras, including extensive clandestine trading across the siege lines, theft and diversion of aid, and complicity in the black market by peacekeeping forces. In *Blue Helmets and Black Markets*, Peter Andreas traces the interaction between these formal front-stage and informal backstage activities, arguing that this created and sustained a criminalized war economy and prolonged the conflict in a manner that served various interests on all sides. Although the vast majority of Sarajevans struggled for daily survival and lived in a state of terror, the siege was highly rewarding for some key local and international players. This situation also left a powerful legacy for postwar reconstruction: new elites emerged via war profiteering and an illicit economy flourished partly based on the smuggling networks built up during wartime. Andreas shows how and why the internationalization of the siege changed the repertoires of siege-craft and siege defenses and altered the strategic calculations of both the besiegers and the besieged. The Sarajevo experience dramatically illustrates that just as changes in weapons technologies transformed siege warfare through the ages, so too has the arrival of CNN, NGOs, satellite phones, UN peacekeepers, and aid convoys. Drawing on interviews, reportage, diaries, memoirs, and other sources, Andreas documents the business of survival in wartime Sarajevo and the limits, contradictions, and unintended consequences of international intervention.

Concluding with a comparison of the battle for Sarajevo with the sieges of Leningrad, Grozny, and Srebrenica, and, more recently, Falluja, Blue Helmets and Black Markets is a major contribution to our understanding of contemporary urban warfare, war economies, and the political repercussions of humanitarian action.

bill carter fools rush in: Love, Sex and Other Foreign Policy Goals Jesse Armstrong, 2016-06-07 The debut novel from the creator of HBO's *Succession*, premiering in Summer 2018. It's 1994, and war rages on in Yugoslavia—Sarajevo is under siege, and Bosnia's different ethnic groups are battling for control of the newly independent country. Hundreds of miles away, in a posh dining room in west London, Andrew is in a similarly precarious situation: the fine balancing act of breathing, blinking, and sipping champagne at the same time. Penny, who may be the love of his life, is about to make the Great Announcement to her parents: that she, Andrew, and a handful of other young idealists are headed to Bosnia to stop the war by performing peace plays from the back of their van. But more important than peace—does Penny like Andrew, too? Or does she like Simon, who Andrew concedes is “essentially me, only better”? Will this trip across Europe finally bring them together, or will Andrew die in a minefield? And just how long will it take the gang to figure out that Andrew does not, in fact, speak Serbo-Croat? From one of England's most lauded comedy writers, *Love, Sex, and Other Foreign Policy Goals* is a satiric, absurd, and laugh-out-loud romp about tenderhearted, misguided dilettantes traveling through war-torn Europe, with nothing but a half-written script to protect them.

bill carter fools rush in: Fools Rush In Bill Carter, 2005-04-27 Published in Britain to great acclaim -- a startling, gut-wrenching memoir of war, personal dissolution, and rebirth -- based on the author's experiences in Bosnia. When tragedy strikes Bill Carter's life he finds himself drawn to an

unlikely place -- Bosnia, in the midst of its civil war. Searching for meaning in the heart of darkness, he manages to find lodging in an abandoned tower block and sets out getting supplies to the starved, besieged citizens of Sarajevo. Inspired by a community of people working to bring relief to the city, he daringly enlists the help of music group U2 and its lead singer, Bono, who set up satellite links on the band's Zooropa tour that allowed ordinary citizens of Sarajevo to speak unedited and live on 90-foot television screens to thousands of concertgoers worldwide. Just as Michael Herr's Vietnam memoir *Dispatches* captured the horror of war for the '60s generation, Bill Carter's *Fools Rush In* will be the seminal book for this generation on the visceral and transformative impact of war in our time.
