david gordon green interview: *Horror That Haunts Us* Karrà Shimabukuro, Wickham Clayton, 2024-02-06 Horror's pleasures fundamentally hinge on looking backward, either on destabilising trauma, or as a period of comfort and happiness which is undermined by threat. The horror films of our youth can be locations of psychological and social trauma, or the happy place we go back to for comfort when our lives become unsettled. *Horror That Haunts Us: Nostalgia,*

Revisionism, and Trauma in Contemporary American Horror is a collection of essays that brings together multiple theoretical and critical approaches to consider the way popular horror films from the last fifty years communicate, embody, and rework our view of the past. Whether we look at our current relationship to the scary movies of decades ago as personal or cultural memory, the way historical and sociopolitical events and frameworks – especially traumas – reframe the way we look at our pasts, or even the way recent horror films and video games look back at our past (and the past of the genre itself) through a filter of experience and history, this collection will show the close relationship between nostalgia and popular horror. These essays also demonstrate a range of unique and diverse points of view from both established and emerging scholars on the subject of horror and the past. Edited by seasoned horror experts Karrá Shimabukuro and Wickham Clayton, *Horror That Haunts Us* is a book with the aim of examining why we return again and again to certain popular horror films, either as remakes or reboots or as the basis for pastiche and homage.

david gordon green interview: New Rural Cinema Tim Lindemann, 2024-02-19 In the past decade, spanning from the aftermath of the 2008 financial crisis to the beginning of the Covid-19 pandemic, rural poverty in the United States has risen dramatically. The impact of the pandemic is set to intensify these inequalities as the decades of neoliberal dismantling of public healthcare and other social institutions leave inhabitants of impoverished rural areas particularly vulnerable. Even before this current exacerbation, representations of rural landscape in American cinema have sought to spatially visualize the country's social inequalities and focus on the victims of poverty and marginalization. The films discussed in this monograph, *Ballast* (2008), *Winter's Bone* (2010), *Beasts of the Southern Wild* (2012), and *Leave No Trace* (2018), address deep rural poverty in a complex manner and facilitate an interactive, social understanding of landscape. *New Rural Cinema* suggest a novel way of looking at landscape in cinema that responds to and guides its readers through this recent development in American Independent film. It views the chosen films as expressions of a growing awareness of the dire inequality caused by neoliberal capitalism in the United States and

the role landscape plays both in its mechanisms of social exclusion as well as in its collective contestation.

david gordon green interview: *Halloween* Mark Bernard, 2019-10-02 This book argues that Halloween need not be the first nor the most influential youth slasher film for it to hold a special place in the history of youth cinema. John Carpenter's 1978 horror hit was once considered the be-all, end-all of teen slasher cinema and was regarded as the first, the best, and the most influential American slasher film. Recent revisions in film history, however, have challenged Halloween's comfortable place in the canon of youth horror cinema. However, this book argues that the film, like no other, draws from the themes, imagery, and obsessions that fueled youth horror cinema since the 1950s—Gothic atmosphere, atomic dread, twisted psychology, and alienated teenage monsters—and ties them together in the deceptively simple story of a masked killer on Halloween night. Along the way, the film delivers a savage critique of social institutions and their failure to protect young people. Halloween also depicts a cadre of compelling and complicated youth characters: teenage babysitters watching over preadolescents as a killer, who is viciously avoiding the responsibilities of young adulthood, stalks them through the shadows. This book explores all these aspects of Halloween, including the franchise it spawned, providing an invaluable insight into this iconic film for students and researchers alike.

david gordon green interview: *Not Hollywood* Sherry B. Ortner, 2013-02-27 The pioneering anthropologist Sherry B. Ortner combines her trademark ethnographic expertise with critical film interpretation to explore the independent film scene in New York and Los Angeles since the late 1980s. Not Hollywood is both a study of the lived experience of that scene and a critical examination of America as seen through the lenses of independent filmmakers. Based on interviews with scores of directors and producers, Ortner reveals the culture and practices of indie filmmaking, including the conviction of those involved that their films, unlike Hollywood movies, are telling the truth about American life. These films often illuminate the dark side of American society through narratives about the family, the economy, and politics in today's neoliberal era. Offering insightful interpretations of many of these films, Ortner argues that during the past three decades independent American cinema has functioned as a vital form of cultural critique.

david gordon green interview: The Exorcist Legacy Nat Segaloff, 2023-07-25 Foreword by John Russo Updated and Expanded with a New Coda A provocative, fascinating, and compulsively readable account of one of the most shocking, influential, and successful films of all time, *The Exorcist*, with a new coda on *The Exorcist: Believer* and the upcoming *The Exorcist: Deceiver*. On December 26, 1973, *The Exorcist* was released. Within days it had become legend. Moviegoers braved hours-long lines in winter weather to see it. Some audience members famously fainted or vomited. Half a century later, the movie that both inspired and transcends the modern horror genre has lost none of its power to terrify and unsettle. *The Exorcist Legacy* reveals the complete story of this cultural phenomenon, from the 1949 real-life exorcism in Maryland that inspired William Peter Blatty's bestselling novel on which the movie is based, to its many sequels, prequels, TV series, and homages. Nat Segaloff, biographer of the film's director, William Friedkin, draws on original interviews with cast, crew, and participants as well as revelations from personal papers to present an intriguing and surprising new view of the making of the movie, and its aftermath. Segaloff also examines as never before the keys to the movie's enduring appeal. Friedkin and Blatty's goal was far more ambitious than making a scary movie; they aimed to make people "think about the concept of good and evil." *The Exorcist* succeeds, and then some, not just by creating on-screen scares, but by challenging viewers' deepest personal beliefs—and fears.
