Along the way, we'll uncover the cultural significance of the trickster, the historical backdrop of the Muslim world in the sixteenth century, and how the idea of “between worlds” captures the imagination of many storytellers and historians alike.

The Trickster Archetype: A Catalyst for Transformation

At the heart of this narrative is the trickster—a figure that appears in myths and folklore across cultures. Tricksters are boundary-crossers, rule-breakers, and agents of change. They challenge norms, provoke thought, and often enable journeys into new realms of understanding.

The Role of the Trickster in Muslim and Global Folklore

In Islamic culture, figures resembling tricksters appear in folk tales and mystical stories, though often with unique nuances. The trickster may manifest subtly in Sufi anecdotes, where paradox and wit dismantle rigid thinking, or in popular tales that emphasize cleverness and adaptability. Globally, the trickster takes many forms—Loki in Norse mythology, Anansi the spider in West African tales, and Nasreddin Hodja in Middle Eastern folklore.

Nasreddin Hodja, in particular, is a compelling example often depicted as a witty and sometimes absurd figure who challenges authority and conventional wisdom. His stories serve as moral lessons wrapped in humor and mischief, resonating deeply with the idea of a trickster facilitating journeys between literal or metaphorical worlds.

The Sixteenth Century Muslim World: A Vibrant Historical Context

To understand the significance of a “sixteenth century Muslim” being transported between worlds, it helps to appreciate the rich and diverse historical landscape of that era. The sixteenth century was a period of remarkable cultural, scientific, and political activity within the Muslim world.

Major Empires and Cultural Crossroads

The Ottoman Empire, Safavid Persia, and Mughal India were three dominant powers during this period, each contributing to a flourishing of arts, architecture, scholarship, and commerce. Cities like Istanbul, Isfahan, and Delhi buzzed with intellectual exchange, religious discourse, and vibrant marketplaces connecting East and West.

The sixteenth century was also a time of encounters between Muslim societies and European powers, which led to complex interactions ranging from trade and diplomacy to conflict and cultural exchange. This dynamic backdrop enriches the narrative of a Muslim individual navigating worlds—both familiar and unfamiliar.

Spiritual and Intellectual Currents

Within the sixteenth century Muslim world, Sufism played a significant role. Mystical traditions emphasized the inner journey, transcending physical boundaries to access higher spiritual realities. This spiritual perspective aligns intriguingly with the idea of traveling “between worlds,” where the boundaries between the material and the spiritual blur.

Traveling Between Worlds: Interpretations and Symbolism

What does it mean to travel between worlds? Is this a literal journey through time and space, a mystical experience, or a metaphor for personal transformation? The phrase “trickster travels a sixteenth century Muslim between worlds” invites multiple interpretations.

Time Travel and Historical Displacement

One literal interpretation imagines a sixteenth century Muslim suddenly whisked away to another era—or dimension—by a trickster’s whim. This scenario is a popular trope in speculative fiction, where historical figures confront modern realities or alternate histories. Such stories explore themes of identity, adaptation, and the clash or fusion of cultures.

Mystical Journeys and Spiritual Realms

Alternatively, the journey could be a spiritual one, guided by a trickster figure who leads the traveler through unseen worlds—dreamscapes, heavens, or other metaphysical planes. In Sufi poetry and teachings, such journeys symbolize the soul's progression toward divine truth, often involving tests, riddles, and paradoxes that only a trickster's cunning could navigate.

Between Worlds as a Metaphor for Cultural Hybridity

Traveling between worlds also reflects the lived experience of cultural hybridity. A sixteenth century Muslim encountering new ideas, languages, and customs may feel caught between familiar traditions and foreign influences. The trickster, in this sense, represents the unpredictable forces—historical, social, or personal—that propel individuals across cultural boundaries.

Lessons from the Trickster's Journey: Insights and Reflections

Exploring how a trickster travels a sixteenth century Muslim between worlds offers more than just a fantastical tale; it opens windows into human experience and cultural understanding.

Embracing Change and Uncertainty

The trickster's role is to disrupt and challenge. For the sixteenth century Muslim, being transported across worlds—whether literally or metaphorically—means confronting uncertainty and adapting. This mirrors real historical experiences where individuals and societies faced rapid change and had to rethink their identities.

The Power of Storytelling Across Time

Narratives involving tricksters and journeys between worlds remind us of the timeless power of storytelling. They link past and present, weaving together myth, history, and imagination. Through these stories, we can better appreciate how people of the past might have understood their world and their place within it.

Intersections of Faith and Folklore

The intersection of Islamic spirituality and trickster folklore enriches our understanding of both. It highlights how faith traditions can incorporate humor, paradox, and subversion, inviting believers to

explore deeper truths beyond dogma.

Trickster Travels a Sixteenth Century Muslim Between Worlds: An Exploration of Identity, Myth, and History

trickster travels a sixteenth century muslim between worlds—this phrase encapsulates a rich narrative intersection of culture, history, mythology, and the fluidity of identity. The concept evokes images of a figure both rooted in the Islamic world of the sixteenth century and yet transcending temporal and spatial boundaries, navigating through multiple realities or “worlds.” Such a portrayal invites a thorough investigation into the cultural symbolism of the trickster archetype, the historical context of the sixteenth-century Muslim world, and the literary or metaphorical significance of crossing between worlds.

This article aims to dissect the layers embedded in this motif, examining how the trickster’s journey reflects broader themes in Islamic history and storytelling, and how the notion of traveling between worlds can be interpreted within spiritual, cultural, and historical frameworks.

The Trickster Archetype in Islamic and Global Contexts

The trickster is a universal archetype found in many cultures, often characterized by cunning, ambiguity, and the ability to transcend conventional boundaries. In Islamic folklore, figures such as Nasreddin Hodja embody trickster qualities—witty, humorous, and often subversive characters who challenge social norms and provoke reflection through paradox and satire.

Unlike the purely malevolent connotations sometimes associated with tricksters, Islamic tricksters often serve as social commentators or spiritual guides, using their liminal status to navigate complex moral and existential questions. This duality—of being both disruptive and enlightening—makes the trickster an ideal protagonist for a narrative involving travel between worlds.

Sixteenth Century Muslim World: Historical and Cultural Backdrop

Understanding the sixteenth-century Muslim world is essential to contextualize the trickster’s journey. This period was marked by the flourishing of Islamic empires such as the Ottoman, Safavid, and Mughal dynasties. These empires were not only political and military powers but also centers of cultural, scientific, and religious development.

Trade routes like the Silk Road and maritime paths connected diverse regions, facilitating the exchange of goods, ideas, and beliefs. This interconnectedness fostered a cosmopolitan atmosphere where multiple “worlds” — geographic, cultural, and intellectual — coexisted and interacted.

The sixteenth century was also a time of religious dynamism and debate within Islam, with Sufism playing a significant role in spiritual life. Sufi mystics often spoke of transcending the material world to access higher realities, a concept metaphorically akin to “traveling between worlds.”

Traveling Between Worlds: Literal and Metaphorical Dimensions

The idea of a sixteenth-century Muslim trickster traveling between worlds can be read in several ways. On one level, it may refer to literal journeys—pilgrimages, trade expeditions, or diplomatic missions—that involved crossing vast territories and encountering diverse cultures. On another level, it resonates with spiritual or metaphysical travel, such as the soul’s journey in Sufi mysticism or the exploration of alternate states of consciousness.

Physical Journeys in the Sixteenth Century Muslim Realm

The sixteenth century saw numerous travelers whose experiences reflected the diversity of the Muslim world. Figures like Ibn Battuta in earlier centuries set a precedent for extensive travel narratives. For a trickster character, physical travel could symbolize the crossing of cultural boundaries, challenging rigid identities and embracing hybridity.

These journeys were often fraught with challenges—language barriers, political tensions, religious differences—but they also facilitated cultural exchange and mutual understanding. A trickster’s ability to adapt, deceive, or entertain would have been invaluable in navigating such complex social landscapes.

Metaphysical and Spiritual Travel

Sufi literature frequently employs metaphors of travel and transformation. The concept of the “journey of the soul” toward divine truth involves moving between different planes of existence or “worlds.” A trickster in this context could represent the human soul’s restless quest for meaning, using cunning and paradox to break free from worldly attachments.

This spiritual dimension enriches the narrative, positioning the trickster not just as a worldly traveler but as a mediator between the mundane and the transcendent. The sixteenth century, with its rich Sufi heritage, provides fertile ground for such explorations.

Literary and Cultural Significance of the Trickster's Dual Worlds

The motif of traveling between worlds aligns with broader themes in literature and culture concerning liminality, identity, and transformation. For a sixteenth-century Muslim trickster, moving between worlds could symbolize the negotiation of multiple identities—religious, ethnic, social—and the fluidity inherent in such negotiations.

Comparisons to Other Trickster Traditions

Globally, tricksters often inhabit liminal spaces, acting as bridges between worlds. In Native American folklore, for instance, the coyote or raven moves between the human and spirit worlds, disrupting order to create new possibilities. Similarly, in West African traditions, Anansi the spider is a cunning figure who manipulates worlds through storytelling.

Comparing these traditions with the Islamic trickster highlights universal patterns: the trickster as an agent of change, boundary-crosser, and cultural negotiator. The sixteenth-century Muslim context adds layers of historical specificity, blending spiritual, cultural, and political dimensions.

The Pros and Cons of the Trickster's Role

- **Pros:** The trickster's adaptability and wit allow for survival in turbulent times; serves as a vehicle for social critique and spiritual insight; fosters cultural exchange by bridging disparate worlds.
- **Cons:** Can be perceived as untrustworthy or subversive; may create instability or confusion; risks alienation due to ambiguous loyalties or identities.

These dual aspects underscore the complexity of the trickster figure and the nuanced narratives that emerge from such characters traveling between worlds.

Modern Interpretations and Relevance

Contemporary scholarship and creative works continue to explore the theme of trickster travels across time and space. Within postcolonial studies, the trope of crossing worlds resonates with diasporic experiences and hybrid identities. For Muslims today, revisiting the sixteenth-century trickster can offer insights into historical resilience and cultural adaptability.

Additionally, the motif has found expression in modern literature, film, and digital media, where characters embodying trickster qualities challenge fixed narratives and invite audiences to engage with multiple perspectives.

trickster travels a sixteenth century muslim between worlds: *Trickster Travels* Natalie Zemon Davis, 2007-03-06 An engrossing study of Leo Africanus and his famous book, which introduced Africa to European readers Al-Hasan al-Wazzan--born in Granada to a Muslim family that in 1492 went to Morocco, where he traveled extensively on behalf of the sultan of Fez--is known to historians as Leo Africanus, author of the first geography of Africa to be published in Europe (in 1550). He had been captured by Christian pirates in the Mediterranean and imprisoned by the pope, then released, baptized, and allowed a European life of scholarship as the Christian writer Giovanni Leone. In this fascinating new book, the distinguished historian Natalie Zemon Davis offers a virtuoso study of the fragmentary, partial, and often contradictory traces that al-Hasan al-Wazzan left behind him, and a superb interpretation of his extraordinary life and work. In *Trickster Travels*, Davis describes all the sectors of her hero's life in rich detail, scrutinizing the evidence of al-Hasan's movement between cultural worlds; the Islamic and Arab traditions, genres, and ideas available to him; and his adventures with Christians and Jews in a European community of learned men and powerful church leaders. In depicting the life of this adventurous border-crosser, Davis suggests the many ways cultural barriers are negotiated and diverging traditions are fused.

Looking closely at key early modern dramatic and historical texts, the book uncovers the Moor's complex identity as a Mediterranean figure poised provocatively between European and non-European worlds.

trickster travels a sixteenth century muslim between worlds: *Gottes Schatten* Alan Mikhail, 2021-03-18 Das Osmanische Reich war um 1500 das mächtigste Reich der Welt, dessen Herrschaftsgebiet sich unter Sultan Selim nahezu verdreifachte. Der preisgekrönte amerikanische Historiker Alan Mikhail betrachtet in seinem meisterhaft erzählten Buch den Beginn der Neuzeit konsequent von diesem Reich und diesem Herrscher aus. Auf der Grundlage bisher vernachlässigter Quellen zeichnet er so ein ganz neues Bild von dieser Schlüsselepoche: Ohne die Osmanen hätten die Europäer nicht Amerika erobert, hätte es keine Reformation gegeben und keine Moderne. Selim I. der Gestrenge (1470 - 1520), osmanischer Sultan und Kalif aller Gläubigen, lebte in einer Welt im Umbruch. Mit der Eroberung Amerikas durch die Spanier begann nach landläufiger Meinung der

Aufstieg des Westens, mit der Reformation wurden mittelalterliche Denkweisen überwunden. Doch die eigentlich treibende Kraft dieser Veränderungen wurde bisher ausgeblendet: Erst das Vordringen des Osmanischen Reiches nach Westen zwang die Europäer ihrerseits weiter nach Westen in eine Neue Welt, wo sie ihren alten Kreuzzug gegen den Islam fortsetzten. Nicht zufällig kam es in Europa zur Glaubensspaltung, als Sultan Selim den sunnitischen Islam reformierte und sich der Graben zwischen Sunniten und Schiiten vertiefte. Alan Mikhail zeigt auf faszinierende Weise, wie sehr die Geschichte Europas und Amerikas mit der islamischen Welt verflochten ist. Ob wir es wollen oder nicht, die Welt, in der wir leben, ist eine sehr osmanische. Und diese Geschichte kann uns nur Sultan Selim erzählen.

trickster travels a sixteenth century muslim between worlds: *Shakespeare through Islamic Worlds* Ambereen Dadabhoy, 2024-02-29 Shakespeare through Islamic Worlds investigates the peculiar absence of Islam and Muslims from Shakespeare's canon. While many of Shakespeare's plays were set in the Mediterranean, a geography occupied by Muslim empires and cultures, his work eschews direct engagement with the religion and its people. This erasure is striking given the popularity of this topic in the plays of Shakespeare's contemporaries. By exploring the limited ways in which Shakespeare uses Islamic and Muslim tropes and topoi, Ambereen Dadabhoy argues that Islam and Muslim cultures function as an alternate or shadow text in his works, ranging from his staged Mediterranean plays to his histories and comedies. By consigning the diverse cultures of the Islamic regimes that occupied and populated the early modern Mediterranean, Shakespeare constructs a Europe and Mediterranean freed from the presence of non-white, non-European, and non-Christian Others, which belied the reality of the world in which he lived. Focusing on the Muslims at the margins of Shakespeare's works, Dadabhoy reveals that Islam and its cultures informed the plots, themes, and intellectual investments of Shakespeare's plays. She puts Islam and Muslims back into the geographies and stories from which Shakespeare had evacuated them. This innovative book will be of interest to all those working on race, religion, global and cultural exchange within Shakespeare, as well as people working on Islamic, Mediterranean, and Asian studies in literature and the early modern period.

trickster travels a sixteenth century muslim between worlds: *Negotiating Transcultural Relations in the Early Modern Mediterranean* Stephen Ortega, 2016-04-22 Negotiating Transcultural Relations in the Early Modern Mediterranean is a study of transcultural relations between Ottoman Muslims, Christian subjects of the Venetian Republic, and other social groups in the sixteenth and seventeenth centuries. Focusing principally on Ottoman Muslims who came to

Venice and its outlying territories, and using sources in Italian, Turkish and Spanish, this study examines the different types of power relations and the social geographies that framed the encounters of Muslim travelers. While Stephen Ortega does not dismiss the idea that Venetians and Ottoman Muslims represented two distinct communities, he does argue that Christian and Muslim exchange in the pre-modern period involved integrated cultural, economic, political and social practices. Ortega's investigation brings to light how merchants, trade brokers, diplomats, informants, converts, wayward souls and government officials from different communities engaged in similar practices and used comparable negotiation tactics in matters ranging from trade disputes, to the rights of male family members, to guarantees of protection. In relying on sources from archives in Venice, Istanbul and Simancas, the book demonstrates the importance of viewing Mediterranean history from a variety of perspectives, and it emphasizes the importance of understanding cross-cultural history as a negotiation between different social, cultural and institutional actors.

This volume will be essential for both postgraduates and historians studying biography.

trickster travels a sixteenth century muslim between worlds: *Religious Refugees in the Early Modern World* Nicholas Terpstra, 2015-07-23 The religious refugee first emerged as a mass phenomenon in the late fifteenth century. Over the following two and a half centuries, millions of Jews, Muslims, and Christians were forced from their homes and into temporary or permanent exile. Their migrations across Europe and around the globe shaped the early modern world and profoundly affected literature, art, and culture. Economic and political factors drove many expulsions, but religion was the factor most commonly used to justify them. This was also the period of religious revival known as the Reformation. This book explores how reformers' ambitions to purify individuals and society fueled movements to purge ideas, objects, and people considered religiously alien or spiritually contagious. It aims to explain religious ideas and movements of the Reformation in nontechnical and comparative language.

trickster travels a sixteenth century muslim between worlds: *Mapping the World at the Dawn of the British Empire* Matthew Dimmock, Andrew Hadfield, 2025-06-20 *Mapping the World at the Dawn of the British Empire* is a compact and informative guide to the ways in which the world was understood and imagined by British travellers and readers in the Tudor and Jacobean period, just before the rapid expansion of the transoceanic British Empire from the mid-seventeenth century onwards. The book shows how the relatively restricted English-speaking world understood different people and places, sometimes through direct encounters, more often through descriptions and travel narratives. The book covers British perceptions of the diverse cultures of the world known to them in the early seventeenth century, from Paris to the South Sea Islands; from the earliest precarious colonies established in the Americas to the mighty Ottoman and Chinese empires; from the frozen north as sailors vainly sought to open up new trade routes by discovering the north-west or north-east passages, to the arid deserts of the Sahara; from the rich fishing grounds of the Baltic and the North Atlantic to the mythical kingdom of Prester John, the fabled golden city of El Dorado and the hidden societies of the dangerous women warriors, the Amazons. The book shows that British readers encountered a vision of the world that simultaneously represented them as specially selected white Christians, superior to other peoples, but also reminded them how dependent they were on other peoples, whose territories produced such vast riches. Reading these accounts of

travel, trade, and colonialism demonstrates that English speakers realized how much they had to learn if their nations were to survive and flourish, as well as the possibilities for accumulating wealth through trade and conquest. The book is divided into six chapters, each prefaced by a contemporary map: Europe, The North, Islamic West Asia and the Eastern Mediterranean, East Asia and the South Seas, Africa, and The Americas. There is an introduction, a conclusion, a bibliographical essay, and a guide explaining how to use the book. There are also 35 illustrations, comprising of maps, portraits, and images of relevant objects discussed in the text.

trickster travels a sixteenth century muslim between worlds: Travel and Artisans in the Ottoman Empire Suraiya Faruqi, 2014-01-30 It has often been assumed that the subjects of the Ottoman sultans were unable to travel beyond their localities - since peasants needed the permission of their local administrators before they could leave their villages. According to this view, only soldiers and members of the governing elite would have been free to travel. However, Suraiya Faruqi's extensive archival research shows that this was not the case; pious men from all walks of life went on pilgrimage to Mecca, slaves fled from their masters and craftspeople travelled in search of work. Most travellers in the Ottoman era headed for Istanbul in search of better prospects and even in peacetime the Ottoman administration recruited artisans to repair fortresses and sent them far away from their home towns. In this book, Suraiya Faruqi provides a revisionist study of those artisans who chose - or were obliged - to travel and those who stayed predominantly in their home localities. She considers the occasions and conditions which triggered travel among the artisans, and the knowledge that they had of the capital as a spatial entity. She shows that even those craftsmen who did not travel extensively had some level of mobility and that the Ottoman sultans and viziers, who spent so much effort in attempting to control the movements of their subjects, could often only do so within very narrow limits. Challenging existing historiography and providing an important new revisionist perspective, this book will be essential reading for students and scholars of Ottoman history.

trickster travels a sixteenth century muslim between worlds: The Lives of Girls and Women from the Islamic World in Early Modern British Literature and Culture Bernadette Andrea, 2017-04-24 Bernadette Andrea's groundbreaking study recovers and reinterprets the lives of women

from the Islamic world who travelled, with varying degrees of volition, as slaves, captives, or trailing wives to Scotland and England during the sixteenth and seventeenth centuries. Andrea's thorough and insightful analysis of historical documents, visual records, and literary works focuses on five extraordinary women: Elen More and Lucy Negro, both from Islamic West Africa; Ipolita the Tartarian, a girl acquired from Islamic Central Asia; Teresa Sampsonia, a Circassian from the Safavid Empire; and Mariam Khanim, an Armenian from the Mughal Empire. By analysing these women's lives and their impact on the literary and cultural life of proto-colonial England, Andrea reveals that they are simultaneously significant constituents of the emerging Anglo-centric discourse of empire and cultural agents in their own right. *The Lives of Girls and Women from the Islamic World in Early Modern British Literature and Culture* advances a methodology based on microhistory, cross-cultural feminist studies, and postcolonial approaches to the early modern period.

trickster travels a sixteenth century muslim between worlds: *The Western Mediterranean and the World* Teofilo F. Ruiz, 2017-10-02 From the Straits of Gibraltar to Sicily, the European northern Mediterranean nations to the shores of North Africa, the western Mediterranean is a unique cultural and sociopolitical entity which has had a singular role in shaping today's global society. *The Western Mediterranean and the World* is the fascinating story of the rise of that peculiar world and of its evolution from the end of the Western Roman Empire to the present. Uniquely, rather than present the history of the region as a strict chronological progression, the author takes a thematic approach, telling his story through a series of vignettes, case studies, and original accounts so as to provide a more immediate sense of what life in and around the Mediterranean was like from the end of the Roman Empire in the West to the present immigration crisis now unfolding in Mediterranean waters. Emphasizing the development of religion and language and the enduring synergies and struggles between Christian, Jews, and Muslims on both shores of the western sea, Dr. Ruiz connects the region to the larger world and locates the development of Mediterranean societies within a global context. Describes the move from religious and linguistic unity under Roman rule to the fragmented cultural landscape of today Explores the relationship of language, culture, and geography, focusing on the role of language formation and linguistic identity in the emergence of national communities Traces the movements of peoples across regions and their encounters with new geographical, cultural, and political realities Addresses the emergence of various political identities and how they developed into set patterns of political organization Emphasizes the theme of encounters as seen from Christian, Muslim, and Jewish perspectives While it is sure to become a definitive text for university courses on Mediterranean history, *The Western Mediterranean and the World* will also have great appeal among scholars of the Mediterranean as well as general readers of history. Part of *The Blackwell History of the World Series* The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past, for every curious person in every part of the world. It will comprise some two dozen volumes, of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time. The volumes are narrative in form, giving balanced attention to social and cultural history (in the broadest sense) as well as to institutional development and political change. Each provides a systematic account of a very large subject, but they are also both imaginative and interpretative. The Series is intended to be accessible to the widest possible readership, and the accessibility of its volumes is matched by the style of presentation and production.

trickster travels a sixteenth century muslim between worlds: **The Curse of Ham in the Early Modern Era** David M. Whitford, 2017-07-05 For hundreds of years, the biblical story of the Curse of Ham was marshalled as a justification of serfdom, slavery and human bondage. According to the myth, having seen his father Noah naked, Ham's is cursed to have his descendants be forever

slaves. In this new book the Curse of Ham is explored in its Reformation context, revealing how it became the cornerstone of the Christian defence of slavery and the slave trade for the next four hundred years. It shows how broader medieval interpretations of the story became marginalized in the early modern period as writers such as Annius of Viterbo and George Best began to weave the legend of Ham into their own books, expanding and adding to the legend in ways that established a firm connection between Ham, Africa, slavery and race. For although in the original biblical text Ham himself is not cursed and race is never mentioned, these writers helped develop the story of Ham into an ideological and theological defence for African slavery, at the precise time that the Transatlantic Slave Trade began to establish itself as a major part of the European economy during the sixteenth and seventeenth centuries. Skilfully weaving together elements of theology, literature and history, this book provides a fascinating insight into the ways that issues of religion, economics and race could collide in the Reformation world. It will prove essential reading, not only for those with an interest in early modern history, but for anyone wishing to try to comprehend the origins of arguments used to justify slavery and segregation right up to the 1960s.

trickster travels a sixteenth century muslim between worlds: Burckhardt. Renaissance
Andreas Beyer, Susanna Burghartz, Lukas Burkart, 2021-03-29 Eine Anregung zum Weiterlesen eines wirkungsmächtigen Autors der Kulturgeschichte. Jacob Burckhardt (1818-1897), Autor der *Cultur der Renaissance in Italien*, des *Cicerone* und der *Weltgeschichtlichen Betrachtungen*, hat mit seinen Büchern nicht nur die Geschichtswissenschaft und die Kunstgeschichte seiner Zeit maßgeblich geprägt. Dennoch kommt es selten genug vor, dass ein wissenschaftlicher Autor auch noch 200 Jahre nach seiner Geburt nicht nur historisches Interesse auslöst, sondern Gegenstand lebhafter Auseinandersetzung darüber ist, ob sein Werk bis heute taugliche Handreichungen und Interpretamente bereithält. Im Falle von Burckhardt überrascht das nicht, sind doch seine Texte immer wieder aufgelegt und fortlaufend verhandelt worden. Thesenstark handeln sie von der Konstituierung der Moderne, in der zu leben seine Nachfahren vielleicht noch mehr das Gefühl haben durften, als es Burckhardt zu seiner Zeit selbst haben konnte. Aus Anlass von Burckhardts 200. Geburtstag haben sich im Jahr 2018 Historiker, Kunst- und Kulturwissenschaftler in Basel versammelt, um ausgehend von seinem bis heute Maßstäbe setzenden Essay *Die Cultur der Renaissance in Italien* (1860) nach der Aktualität seines Werks zu fragen. Entstanden ist ein Reader, der gleichermaßen kritisch wie würdigend zum Weiterlesen einer der wirkmächtigsten akademischen Hinterlassenschaften ermuntert.
