Product overview Chris has got a new job as a release manager – but he's struggling. Parachuted into a large company to fix its release & deployment process after the catastrophic failure of its new app, Asgard, he finds himself battling an array of insular department heads who are all determined that whatever has gone wrong must be another team's fault. How can he pacify his new colleagues, avoid getting fired and get the job done? Lessons from real projects in a narrative format This latest ITSM narrative from Daniel McLean explains the common pitfalls of release & deployment in fictional form, with each chapter describing a difficult meeting with a different department head and featuring a set of pointers that our hero would have found beneficial.
